

USB Rechargeable With Magnet

LED Inspection Light

.....1

New Product

MELODY INT'L GROUP LTD

- High Brightness LED 300LM
- Bottom Back Strong Magnet
- Handle Folded 180 Degrees
- 4000mA Battery Run 6-8 Hours
- Rotating Hidden Double Hook

Unique, Patented, Exclusive, Proprietary USB Rechargeable LED Inspection Light Car Inspection Work Light

1...High brightness about 300LM;
 2...Exclusive dual battery design,4000mA,6-8 hours Running time,longer use;
 3...Unique fast charging design with 2A charger,Fast charging 0.5 hour, using 2 hours,2.5-3 hours full charge ;
 4...Unique PC lens which has anti corrosion and oil stain protection
 LED Front 3W COB 300LM and top Spot 1W LED 90LM (100 Meters)
 Light Size: 295*57*50mm
 Color Temp: 6000-6500K
 Battery: 2pcs Li-ion 18650 battery,3.7V/4000mA ,Exclusive dual battery design,Avoid frequent charging
 LED Beam: Angle 120°
 Material: ABS housing,unique PC lens which has anti corrosion and oil stain protection
 Charger time: 2.5-3 hours with 2A charger.Unique fast charging design,Fast charging 0.5 hour, using 2 hours
 Working time:6-8 hours front LED,18-20hours top LED Running time for full charge.Unique dual battery design for longer use
 Hook Rotating hidden double hook design
 Color The default color is dark green, other colors need MOQ 1000pcs
 Magnet Bottom and back strong magnet design
 Switch On/off switch built-in on the body of the unit
 Functions
 Flexible base(180 degree) with magnet,
 1. Press "on/off" one time, front LED on,press two times,the top LED on, press three times,light off.
 2. Charging reminder: when voltage low,the indicator LED will flash red (please charge),and turn green when fully charged
 Constant current, constant voltage intelligent control, protect LED and battery

Multi-color options, regular stock is dark green, other colors require MOQ200 sets

Anti corrosion Multiple colors optional

Handle can fold 180°

2pcs 360° rotatable hook

Back and bottom
Strong magnet

Lamp cover have
anti corrosion protection
process, oil stain
protection, can use
chemical oil for
cleaning.

Optical principle, lamp
cover spotlight design,
better visual effect,
protect your eyes

Lamp cover have anti corrosion protection process, oil stain protection, can use chemical oil for cleaning.

18650/3.7V/
4000mA

**Double hook
design**

Flashlight

Antiseptic lampshade

**High heat conduction
cooling AL plate, long
using time**

Driver and Switch

Antiskid handle

Inversion intergrated COB LED,
High brightness, cooling well.

Constant current and voltage controll,
can procect LED and battery

Double battery, high capacity,
long endurance time 6 to 8 hours

MELODY INT'L GROUP LTD

MELODY INT'L GROUP LTD

Unique,Patented,Exclusive USB Rechargeable LED Inspection Light,LED Glare Flashlight,LED Emergency Light,LED Camping light With Warning Function

- 1...High brightness about 300LM;
- 2...Exclusive dual battery design,4000mA,6-8 hours Running time,longer use;
- 3...Unique fast charging design with 2A charger,Fast charging 0.5 hour, using 2 hours,2.5-3 hours full chage ;
- 4...Unique PC lens which has snti corosion and oil stain protection

LED Front 3W 2835 SMD 300LM and top Spot 1W LED 90LM (150 Meters)

Light Size: 295*57*50mm Color Temp: 6000-6500K

Battery: 2pcs Li-ion 18650 battery,3.7V/4000mA ,Exclusive dual battery design,Avoid frequent charging

LED Beam Angle 120°

Material: ABS housing,unique PC lens which has snti corosion and oil stain protection

Charger time: 2.5-3 hours with 2A charger.Unique fast charging design,Fast charging 0.5 hour, using 2 hours

Working time:6-8 hours front LED,18-20hours top LED Running time for full charge.Unique dual battery design for longer use

Hook Rotating hidden double hook design,Flexible base(180 degree) with magnet,

Color :The default color is **Silver gray**, other colors need MOQ 1000pcs

Magnet Bottom and back strong magnet design

Switch On/off switch built-in on the body of the unit

1. Press "on/off" one time, front LED on, press two times,the top LED on, press three times,light off. press and hold for 3 seconds, warning light on, press warning light off .

2. Charging reminder: when voltage low,the indicator LED will flash red (please charge),and turn green when fully charged

Constant current, constant voltage intelligent control, protect LED and battery

01 / ONE

- 2835 SMD
- Good heat dissipation
- high brightness
- Low power consumption
- high efficiency
- Low light decay and long life

02 / TWO

- powerful Flashlight,
- Distance can reach 150 meters.
- Convenient for long distances and
- Small gap corner illumination

03 / THREE

- Use 2835 SMD red, green, blue
- Strong penetration in rain and fog
- Outdoor repair safety warning lights
- Driving safety warning lights,
- Outdoor rescue warning light
- Outdoor repair and driving safety

04 / FOUR

- Exclusive product
- The fuselage structure is ergonomically designed.
- High-strength, high-quality materials,
- pressure resistance,
- drop resistance,
- green environmental protection

05
FIVE

Lamp cover have anti corrosion protection
process oil stain protection,
can use chemical oil for cleaning

06
SIX

2pcs 360 degree rotatable hook

07
SEVEN

Back double magnet
Bottom strong magnet

08

Handle can fold 180°

09
NINE

Constant current can
voltage controll
Can protect LED and battery

10
TEN

Double battery,high capacity
ME4000mA
long endurance time 6-8 hours

Instructions

Flexible base(180 degree) with magnet,

1. Press "on/off" one time, front LED on,
press two times,the top LED on,
press three times,light off.
press and hold for 3 seconds, warning light on,
press warning light off .

2. Charging reminder: when voltage low,
the indicator LED will flash red (please charge),
and turn green when fully charged

Constant current, constant voltage intelligent control,
protect LED and battery

Unique fast charging design with 2A charger,

Fast charging 0.5 hour, using 2 hours,2.5-3 hours full chage ;

USB fast charging

2.5-3 hours with 2A charger.
Unique fast charging design,
Fast charging 0.5 hour,
using 2 hours

180 degree rotation
